

LLS Modular Over-the Road Carrier with optional Extension Arms

Extension arms features for Modular Carriers:

- 1) This arm has four adjustments:
- 2) Pivots on the frame
- 3) Extends outward with a lock nut
- 4) The load plate swivels and is adjustable up and down.

Summary.... the arm can support at 1ft. to 4-5 ft. from the frame in a 170 degree radius
